

Technical Requirements

Gastroenterology Krames On-Demand is accessed remotely via the Internet. To use this application, some specific network-level and browser settings are required. There are also individual workstation requirements.

Network-Level Settings

- Firewall settings
 - Port 80 not filtered
- Proxy server settings
 - Cookie filtering turned off
 - Caching turned off

Browser Settings

- Cookies enabled
- JavaScript/Active Scripting enabled

Workstation Requirements

- Access to the Internet (minimum recommended speed is 56K)
- Windows®-based personal computer (233 MHz Pentium® or better processor)
- 64 MB RAM (minimum recommended)
- Windows® 98 or higher
- Internet Explorer 5.5 or higher or Netscape® 7.0
- Screen resolution of 1024 x 768 recommended; minimum of 800 x 600
- Laser or inkjet printer accessible by workstation computer

Your organization can display its own logo in the place of the default Krames logo on HealthSheets™. To do so, you will need to supply us with a copy of your logo in an electronic format.

Custom Logo Requirements

- Color or black and white TIFF (preferred format)
- Color or black and white EPS, GIF or PICT (alternative formats)
- Minimum 150 dpi
- Image size equal to desired size or larger

For more information call 800-333-3032 and speak with your Krames On-Demand account representative.
